

1-Day only
Hands-On Science camp!

- Take home dwarf aquatic frogs in your own kid-created frog habitat!
- Build fettuccini bridges, marshmallow catapults, a giant slingshot, and parachutes!
- Make “squishy balls and home-made ice cream by hand!
- Design and build your own dam! Test it to see if it works!
- Perform Science “Magic Tricks”!
- Construct a biodome and grow your own plants!
- Study “Grossology” and make realistic blood and wounds!
- And lots more!!

Instructor has master’s degree in curriculum and instruction and has taught both in public and private schools in the Knoxville area!

Date: Friday, March 12th from 9:00-4:00
